Based on real bookings in travel distribution, Travel Data + Analytics provides the travel industry with valid market analyses on current trends and developments in the German leisure travel market. Numerous tourism companies and organisations rely on the market-representative information and analytical expertise of Travel Data + Analytics.

As of now, we offer a paid:

Internship as Data Analyst (m/f/d)

During a four to six-month internship, you will gain insights into all areas and topics of our small and young company.

Your tasks:

- Data preparation and data analysis
- Creation of reports and dashboards
- Quality assurance measures, process optimisation
- Support in customer care, development of analysis solutions to improve the market performance of our customers

Expertise:

- Studies in data science or studies in economics or social sciences.
- Data-based modelling and excellent understanding of numbers and analysis
- Good knowledge of statistical programmes or BI tools (such as Tableau) as well as Word, Excel and PowerPoint
- Previous experience in the tourism and travel industry is an advantage

Competences:

- analytical and conceptual thinking skills and the ability to work in a structured manner in complex fields of activity
- result-oriented and independent approach
- good communication and presentation skills

This is what we offer you:

- a feel-good office in a central location in the heart of Nuremberg
- fair, open and respectful interaction in a friendly, agile team

After the internship, there is the possibility of working in the department as a student trainee.

We look forward to receiving your application!
